1926

KAMINIARZ is a brand of a family-owned business which has been continuing a long and rich tradition in pork processing. The beginnings of the brand go back to 1926. In the early 1980s, in the third generation of the KAMINIARZ family, a decision was made to change the production profile and specialize in the production of bacon.

We have been setting the quality standards in bacon production for three decades now. By expanding our range with innovative premium-quality products and technologies, KAMINIARZ has become a synonym for supreme bacon quality in the Polish pork market. Our regular product range comprises smoked, crispy, boiled, steamed and matured bacon in a variety of weights and processing options. All production activities in the plant are gluten-free.

KAMINIARZ-branded bacon has also built up a solid reputation on the European market. We have been exporting our bacon products to Scandinavia, Germany and the UK for many years. Also, we are building our reputation as a supplier to global customers in the food industry.

- innovative oil-free technology
- brand specialized in bacon production
- rich and varied range of bacon products (crispy, smoked, boiled, matured, barbecue)
- wide range of cut products (lardons, slices, bits)
- „clean label” products available on request
- unique fine flavour appreciated by food market leaders
- traditionally smoked in eco-friendly beech, alder or maple wood
- highly standardized products at large volumes
- rigorous quality procedures
- BRC and IFS certificates
- gluten-free production
- extensive experience in product supply for the HoReCa sector

A top-down photograph of a wooden cutting board on a dark, textured surface. The board is piled with several slices of steamed bacon, showing a pinkish-red color and some white fat. Fresh green sage leaves are scattered around the bacon, with one leaf resting on top. A single garlic clove and several small, round, light-colored seeds are also visible on the dark surface to the left of the board. The lighting is dramatic, highlighting the textures of the bacon and the wood.
